

## Still Do

**V1:** It's been five years  
Since I've seen you last  
We were rocking our  
Gowns and caps  
Then you went off to college  
To find something new  
And they shipped me off to boot camp  
Still in love with you

**V2:** Don't believe in fate  
But we're both in this bar  
And you still got  
Ahold of my heart  
Something bout those big blue eyes  
Does something to me  
And it takes all that I have  
To ask if you want a drink

### **Chorus:**

I can still remember  
Our first kiss  
And it felt a lot like this  
I was nervous as can be  
I was weak in the knees  
But you picked me up  
When I fell to the ground  
Yeah, I loved you then  
And I still do now

**V3:** I'm not gonna pass up this chance  
So I bought you a drink and asked you to dance  
I spun you round that old dance floor  
Like I had done all those years before  
And you whispered in my ear  
And we ran right out that door.

### **Chorus**

And you hit the lights  
And I slammed the door  
As I watched your dress hit the floor  
And I wanted you and You wanted me  
And it felt like we were seventeen  
And you said to me

### **Chorus**
